The World's Children
of the World Book

WE BELIEVE AND WE
HOPE that each man, like
the posterity of reaching
the ultimate truth,
the one factor that there
cannot and will not in
this imperfect world.
Each man is an instru-
ment of God. When the
man reaches, each self-
actual and follows to the
other children of God.
When each follows to God,
his responsibilities are
turned into perfection.
No ignorance into know-
ledge, his searching mind
and reaching light and
the universe really into
all existing things.
